Reasons for excisions:

Not Applicable

**Summary of reasons
for classification:**

The computer text file printout *Sleepy Time .txt* is classified as:
Objectionable.

The printout promotes and supports the exploitation of children, or young persons, or both, for sexual purposes. It contains a fictional story about a man who exploits the sexual curiosity of two 11 and 12 year old girls. It portrays the girls as being emotionally and physically ready to engage in sexual activity with an adult man. The writing style is explicit, vernacular and intended to excite and arouse readers.

The classification of this publication interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of children, or young persons, or both, for sexual purposes.
